Trend Merino Petite består av 100% Ekstra Fin Merino Ull. Det er et kabelvunnet garn av flere tråder for å få den runde effekten og volum. Dette gjør at garnet blir elastisk og stabilt etter strikk. Et bærekraftig garn som ikke er superwashbehandlet og som ivaretar ullas unike egenskaper. Garnet er særdeles mykt, og egner seg ypperlig til myke babyplagg og tynnere strikk til barn og dame. Kan brukes til toving. **Leverandøren garanterer at mulesing ikke forekommer i merinoullen.** Produsert i Kina.
